#### **“Changes in ABYC Electrical Standards”**

**Wayne Kelso, P.E.**

There have been several changes in the ABYC electrical standards as a result of a four-year review. (1) Leakage current trip main circuit breakers for shore power are required beginning in July. (2) DC wire ampacity tables are reduced when cables are bundled or sheathed. Wayne will discuss the rationale behind the above changes and other changes and issues that will be addressed in the next ABYC review.

#### **Pacific Mariner**

**Host: Lynn Meyer**

Pacific Mariner currently builds the PM-65 and PM-85. The company's goal is to be the best and set the standards for the industry. All yachts are delivered to owners with a full complement of standard features. Pacific Mariner uses the latest technology and advanced materials to create yachts of extraordinary quality. Coring in the hull and superstructure absorb both shock and noise from wave impact and mechanical space.

**RSVP:** No later than 1600 on Thursday, February 19, 2009.
